

NEVER FRIED ALWAYS POPPED

The potato chips is one of the most favored snacks worldwide. As Wavee potato chips is a new brand, we decided to use illustrated packaging as a means to bring out the brand's identity and the product's features. Various themes and colors are implemented to differentiate between the flavors while maintaining the same brand identity and elements. We want to create a vibrant, beautifully illustrated design with bright, jazzy colors that appeals to the consumers on the chip aisle.
